www.meritindustriesusa.com

An AS9100, ISO9001 Certified & ITAR Compliant Company

Specialties

Precision Machining
 General Machining
 Mold & Die Design & Mfg.
 Fabrication
 Assembly
 Rapid Prototyping
 Design & Engineering

Industries

Aerospace
 Defense
 Energy
 Medical
 Military
 Mining
 OHV

Through an ongoing system of total quality improvement, The Merit Team is dedicated to meet or exceed our customer's standards for quality, cost, performance and delivery.

Core Competencies & Capabilities

Design & Engineering	Machining	Fabrication	Quality Assurance
➤ Engineering	➤ CNC Milling	➤ Welding	➤ Non-Destructive Testing
➤ Reverse Engineering	➤ CNC Turning	➤ Forming	➤ CNC CMM
➤ CAD	➤ CNC Wire/Sinker EDM	➤ Laser Cutting	➤ First Article Inspection
➤ Scanning Capability	➤ Precision Grinding	➤ Water Jet	➤ Lot Traceability
➤ Concept to Production	➤ 5-Axis Machining	➤ Assembly	➤ Serialization

Proven Performance

Merit is a leading manufacturer specifically focused on providing our customers the highest degree of service and quality. For over 50 years Merit has supplied and supported large tier OEM's, specialized equipment manufacturers and The United States Military with industry leading customer service and quality standards in precision manufacturing. Merit has the distinction of achieving AS9100, ISO9100 Certification and maintains the highest level of ITAR compliancy.

Our local partners allow us to offer plating, heat treating, welding, laser cutting and numerous other processes in conjunction with our in house capabilities. We work with stainless steel, alloy steel, aluminum, plastic, high temperature alloys, mild steel and a variety of other materials. We routinely hold machining tolerances of +/- .0005" and ground finishes to within .0002".

Merit utilizes Lean principles and Continuous Quality Improvement in our quest for best-in-class quality and customer satisfaction. As a recognized leader in precision machining, Merit is a collaborative and innovative contract manufacturing partner for OEMs, plastic part manufacturers and companies with small and large lot proof-of-concept production needs

Differentiators

Merit offers industry leading precision manufacturing. We are unique in our ability to offer close tolerance processes coupled with the production capability. Merit is comprised of two distinct divisions of equal competency; Merit Precision Manufacturing for contract manufacturing and Merit Tool for high quality tools.

Large and Small Part Capability

- ✓ Machining Envelope Flexibility

Precision Machining

- ✓ Close Tolerance +/- .0005 & High surface finish requirements

Quality System

- ✓ AS9100/ISO Certified
- ✓ ITAR Compliance

Engineering

- ✓ Comprehensive CAD Capability
- ✓ Concept to Production Capability

Manufacturing & Assembly

- ✓ Value Added Services

5 Axis Machining

- ✓ High Efficiency & High Repeatability/Accuracy
